

APPLICATION FOR RETAINED SEMEN RIGHTS PERMIT With Transfer Report

I hereby acknowledge that I have read and agree to be bound by and follow the AQHA rules pertaining to frozen semen. I also understand that AQHA will investigate non-compliance with these rules and, in the event of such non-compliance, any resulting foals may be ineligible for registration.

I understand that one Retained Semen Rights Permit is required to register a foal conceived using frozen semen from this stallion after he is no longer in my ownership. The signed permit will serve as the stallion owner's portion of the breeder's certificate.

As the stallion owner, I understand that I must ensure that a sufficient number of Retained Semen Rights Permits are purchased prior to my sale of the stallion. Once the ownership changes, I understand that I may no longer purchase Retained Semen Rights Permits from AQHA.

Stallion's Name

Registration Number

Signature of owner or authorized agent of stallion

AQHA ID Number

Date Signed

\$90 is enclosed for each permit and the transfer. If the original purchaser of the permit (listed above) or the buyer of the frozen semen (transfer to below) is not a member, please include an additional \$55 for each who needs to become a member.

If the frozen semen is sold, this portion of the application must be completed providing the new owner's information so the permit can be issued in the new owner's name. By signing below, the owner of the horse hereby transfers all rights and privileges to the permit being issued. For complete rules regarding the use of this permit, please refer to AQHA's Handbook of Rules & Regulations, available at www.aqha.com or by calling our office at (806) 376-4811.

Transfer to: _____

AQHA ID #: _____

Signature of stallion owner (seller): _____
